

Ecological Scavenger Hunt

with the

PRIMARY

- A cavity that might be in use
- A good place for a bat to roost
- A nest of some sort
- Woody debris
- A wildlife tree with the top broken off
- Woodpecker holes
- A hollow trunk where an animal could sleep
- Signs of decay
- Lichens (or fungi)
- Moss growing on a log
- Animals using a tree
- A hunting perch for an owl
- A spider web
- A rock shaped like a letter of the alphabet
- A pinecone or seed pod
- A feather or piece of fur
- Something that crawls on more than 2 legs

I am the only type of mammal that truly flies. Who am I?

I don't have any legs, but I do slither around at night. Who am I?

Most creatures avoid me when I'm wandering around at night because I smell bad.
Who am I?

You may think I'm a dog, but I belong in the wild. Who am I?

I fly around with no problem at night, hunting small animals for food. Who am I?

I have a big furry body and I love to eat anything I can get my paws on (including garbage!) Who am I?

I have long skinny legs, a long neck, a long beak, and big wings. Who am I?
